

## RESERVE WINE LIST

In addition to offering a remarkably comprehensive wine list, The River Club has the luxury of allowing select wines to rest in our temperature-controlled cellar until they reach the peak of maturity. The Reserve Wine List represents a specially-curated selection of wines The River Club judges to be beautifully mature. Available in highly limited quantities and only for a la carte dining (not for special events), the Reserve List elevates what has for decades been the hallmark of what The River Club represents – a dining experience to savor and remember, unlike any other.
